

FABRIC

- Sunbrella 100% Solution Dyed acrylic marine fabric
- Same fabric used on boat coverings and awnings
- Solution dyed to give excellent fade and weather resistance
- Wide variety of fabric color options
- Water, mildew, and fade resistant

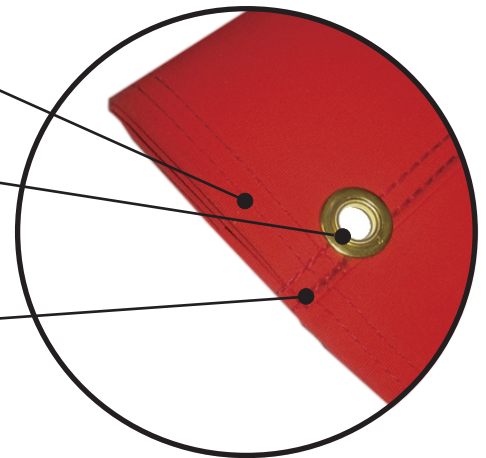

INKS

- Heat set, permanent pigment ink
- Heat dried processing to fuse ink to fabric; won't crack or peel
- UV Resistant/Inhibitor ink provides minimal fading on a year round installation
- Inks available in most PMS colors - (ink colors are reasonable PMS representations)

CONSTRUCTION

- All seams and side hems have double row stitching with double lock stitching
 - Backstitching in stress areas
- Heavy duty spur grommets are placed in all four corners through multiple layers of fabric, locking the hem and providing maximum security at banner stress points
 - UV treated heavy-duty thread to match fabric
- ½" double rolled edges with two rows of stitching to strengthen sides of banners and prevent fraying
 - Banners are manufactured in the USA
 - Banner production utilizes environmentally friendly materials and processes
- Inks and materials contain NO heavy metals and are environmentally safe

WARRANTY

Exterior banners manufactured on marine acrylic fabric in standard size up to 30"x 94" are **warranted for three full years**. This warranty is in effect from the date of purchase against defects in the material and craftsmanship when installed taut and reasonably maintained on Fibreflex® Brackets or approved bracketing systems. Banners are not warranted against defected or improperly installed brackets. Banners attached on hardware that allow the banner to "fly" at the bottom are not warranted after installation.
